NAPCO 3000 QUICK REFERENCE

To arm system

      Enter your code then press ON

To disarm system

      Enter your code then press OFF

To bypass a zone when arming:

      Press BYPASS, then zone number you want to bypass (2 digits, i.e. Zone 2 is 02, zone 11 is 11) then enter your code then press ON

To unbypass a zone:

      Arm the system, then disarm the system as per instructions above

To Silence system if you trip alarm –

      Enter your code then press OFF.
      CALL THE MONITORING COMPANY AND GIVE THEM YOUR PASSWORD
      Then press RESET to reset the system

To activate audible panic at the keypad

      Press P and * at the same time
      (To turn siren off: enter your code then OFF twice)

To activate silent duress (holdup) for emergency help

      Disarm your system by preceding your code with "66"
      This will disarm the system and send a silent alarm to the monitoring company

Note: For panic and ambush codes, the central station monitoring will only dispatch the police. If you need to cancel either of these alarms you must call the central station with your account number and password immediately.
